FERTILIZERS AND SOIL BUILDERS

A garden requires good soil, but even with perfect soil, plant-food must be added each year to replace that which is consumed by the plants

Acid Super-Phosphate. This yields valuable Phosphoric Acid. Apply 20 lbs. per 1000 sq. ft. as a top-dressing for lawns, and drench thoroughly with water. 25 lbs. 90c; 100 lbs. \$2.75; 500 lbs. \$12.50.

Adco. For making artificial manure. A 25-lb. bag with 12 wheelbarrow loads of garden waste, makes $\frac{1}{2}$ ton of manure. 7 $\frac{1}{2}$ lbs. \$1; 25-lb. bag \$2.25; 150-lb. bag \$10.50.

Aluminum Sulphate. Use to acidify the soil in the rhododendron beds and other sour-soil plants. 5 lbs. 50c; 10 lbs. 80c; 25 lbs. \$1.50; 100 lbs. \$4.75.

Bone-Meal. Desirable for fertilizing all hard-wooded plants, including roses, flowering shrubs, fruit bushes and trees. A liberal application mixed into the soil before planting bulbs of tulips, hyacinths, etc., will result in remarkable size and brilliancy of flowers. For lawns it is a dependable fertilizer, as it contains the essentials that grass requires. For this use 25 lbs. for every 1000 sq. ft. For trees and vines, use 2 to 4 lbs. each. For roses and pot-plants, use 1 part to about 50 parts of soil. For new lawns, use 50 lbs. for every 1000 sq. ft. 5 lbs. 50c; 10 lbs. 90c; 25 lbs. \$1.65; 50 lbs. \$2.95; 100 lbs. \$4.95; 500 lbs. \$24; 1000 lbs. \$45.

Bovung. A dehydrated, pulverized cow-manure product free from weed seeds. Apply 50 lbs. to 200 sq. ft. of new lawn. 50 lbs. \$1.85; 100 lbs. \$3.60; 500 lbs. \$17.50.

Cow-Manure. In dry pulverized form and easy to handle. This is an ideal soil-builder and mulch. It is fine for lawn, garden and greenhouse. 25 lbs. \$1.45; 50 lbs. \$2.40; 100 lbs. \$4; 500 lbs. \$17.50; 1000 lbs. \$33.50.

Driconure. Containing about $\frac{3}{4}$ cow and poultry manures in dehydrated form and $\frac{1}{4}$ peat moss, finely ground and easy to apply. Ideal for top-dressing lawn or garden. 50 lbs. \$2; 100 lbs. \$3.90; 500 lbs. \$19; 1000 lbs. \$36; ton \$70.

Hyper-Humus. A pure organic material of fine texture and is non-acid. Humus gives to soil that porous, crumbly condition essential to plant-growth. It is odorless, dry, and easily handled, and absolutely free from weed seeds. Fine for mixing with potting-soil. In top-dressing old lawns, use 100 pounds per 100 square feet. In bags, 50 lbs. \$1.25; 100 lbs. \$2; 500 lbs. \$9; 1000 lbs. \$15; ton \$28. Special price on bulk delivered.

Lawn Fertilizer. Top-dress 25 lbs. per 1000 sq. ft. to maintain a rich green, healthy growth. On new lawns use 50 lbs. per 1000 sq. ft. 5 lbs. 45c; 10 lbs. 80c; 25 lbs. \$1.50; 50 lbs. \$2.50; 100 lbs. \$4; 500 lbs. \$19; 1000 lbs. \$36.

Lime, Hydrated Agricultural. Corrects acid conditions of the soil. As a fall dressing for lawns, broadcast 50 lbs. per 1000 sq. ft. 10 lbs. 35c; 50 lbs. 70c; 100 lbs. \$1.30; 500 lbs. \$6; ton \$21.

Limestone, Pulverized. Easier to apply than Hydrated Lime. Use 70 lbs. per 1000 sq. ft. broadcast. 80-lb. bag 75c; 400 lbs. \$3.50; 800 lbs. \$6.50; ton \$15.50.

Peat Moss, Granulated GPM. Prevents crusting, improves aeration, adds humus, lightens and makes soil more friable, acts as a reservoir for soil-moisture. For mulching beds, it holds moisture in summer and gives protection in winter. Large bale (about 20 bus.) \$5. 5 large bales at \$4.90; half bales \$2.95; 5 $\frac{1}{2}$ bales at \$2.85.

Sheep Manure. Has all the essential plant-food elements of stable manure without the bulk, weed seeds, and waste matter. Broadcast 100 lbs. per 1000 sq. ft. over the old lawn or rake thoroughly into the top-soil a day or two before seeding a new one. 5 lbs. 45c; 10 lbs. 80c; 25 lbs. \$1.45; 50 lbs. \$2.40; 100 lbs. \$4; 500 lbs. \$17.50; 1000 lbs. \$33.50.

Wood Ashes. These contain potash and lime. For top-dressing lawns, destroying insects, use 100 lbs. to 1500 sq. ft. 25 lbs. \$1.10; 50 lbs. \$2; 100-lb. bag \$3.50; 1000 lbs. \$25.

FREE DELIVERY. We deliver FREE, by our own trucks, within the suburban area of Newark, N. J. (viz. all of Essex and Union counties; Clifton, Little Falls, Passaic and Paterson in Passaic County; and Boonton, Chatham, Denville, Florham Park, Hanover, Madison, Mt. Lakes, Mt. Tabor, Morris Plains, Morristown, and Whippany in Morris County) all merchandise offered in this list.

FORBES LAWN SEED for every need

The best lawn is produced from a seed mixture of several grasses, each in the proper proportion to serve its purpose. We blend the mixtures offered below from heavy, re-cleaned live seeds in proportions which years of experience have proved to be best.

For quick results sow 1 pound per 100 square feet. Half that amount gives good results but takes longer. Planting directions with every bag.

The "Forbes" Lawn Mixture

This is our most popular mixture and is made up of five dwarf perennial grasses, giving a lawn of rich green, fine texture and a permanency not usually found. Lb. 95c; 5 lbs. \$4.50; 10 lbs. \$8.50; 25 lbs. \$20.75; 100 lbs. \$80.

Elite Lawn Mixture

This is a superior blend producing an ideal verdant close turf of very fine-leaved texture, more nearly resembling the fineness of a putting-green. Does not require the constant attention usual with putting-greens. Lb. \$1.10; 5 lbs. \$5.25; 10 lbs. \$10; 25 lbs. \$24.25; 100 lbs. \$95.

Shady Place Lawn Mixture

Thrives better than any other in partially shaded areas, as it includes grasses which grow naturally in the shade. Frequent watering and feeding is essential to supply both tree roots and grass roots. Lb. \$1; 5 lbs. \$4.75; 10 lbs. \$9; 25 lbs. \$21.75; 100 lbs. \$85.

Terrace Lawn Mixture

This forms a densely matted network of deep roots, withstanding the wash from heavy rains on slopes. The longer roots also command the deeper moisture level when the terraces become dry in summer. Lb. \$1; 5 lbs. \$4.75; 10 lbs. \$9; 25 lbs. \$21.75; 100 lbs. \$85.

Branch Brook Park Lawn Mixture

A low-priced standard mixture giving a lawn of good color and withstanding normal wear. Lb. 80c; 5 lbs. \$3.75; 10 lbs. \$7; 25 lbs. \$17; 100 lbs. \$65.

White Clover

This dwarf, compact, dark green variety is suggested for use where it has been found difficult to produce a turf with lawn seed mixtures only. $\frac{1}{4}$ lb. 50c; $\frac{1}{2}$ lb. 95c; lb. \$1.85.

BULBS FOR GROWING INDOORS

Amaryllis, Giant Hybrids. In white, red and pink variations. Attractive large bulbs, 60 cts. each; \$6 per doz.

Calla Lilies. Plant singly in 6-inch pots with bulb-top just above soil. In room temperature will bloom in 6 to 8 weeks. **White, or Yellow,** Each 65c; doz. \$6.50. **Pink,** Very fine color. Each 75c; doz. \$7.50.

Paper-White Narcissus. These fragrant flowers bloom in succession from Christmas until Easter. Plunge bulbs in bowls, water and keep in cool, dark place for two weeks. Bring to light as needed. \$1.10 per doz.; 25 for \$2.15; \$8 per 100; \$75 per 1000.
